

NEWS RELEASE

D4 / E1 CHANNEL BANK PRODUCT LINES DISCONTINUED

For Immediate Release
November 16, 2007

Belmont, CA — Swedcom today announced it will discontinue its D4 / E1 channel bank product lines effective December 1, 2007, but will continue to support its channel bank products produced to date.

Channel cards, dataports, and multiplex modules will continue to be available to customers, however limited to available stock. In addition, Swedcom will continue to support its long-term customers with channel bank inquiries for current products.

Swedcom is a privately held California Corporation dedicated to providing high performance antennas for the telecommunication community.

For additional information regarding the channel banks, antennas or other Swedcom products, please contact Swedcom at (650) 620-9420 or send your e-mail to: info@swedcom.com.
